31st May 2009: 6.30pm, Talks from 7pm  
Six Bells, Covent Garden, Cambridge

*How can our community respond to  
the challenges, and opportunities, of  
Peak Oil and Climate Change?*

“The two toughest challenges facing humankind at the start of this 21st century are Climate Change and Peak Oil...Peak Oil, heralding the era of ever-declining fossil fuel availability, may well challenge the economic and social stability that is essential if we are to mitigate the threats posed by Climate Change.

The transition initiatives currently in progress represent the most promising way of engaging people to take the far-reaching actions required to mitigate the effects of Peak Oil and Climate Change.

Furthermore, these relocalisation efforts are designed to result in a life that is more fulfilling, more socially connected and more equitable. “
