It’s 2050 and Cambridge has changed...

Without cheap oil and other fossil fuels, we’ve found new ways of doing everything: from how we grow our food, get around, keep warm in winter, to the clothes we wear, where we go on holiday and what we do for fun.

... but it’s still a buzzing city, full of life

Write a story set in 2050 with your vision of how you’d like Cambridge to be!

£750 worth of prizes
Closing date 30 April
