'Grow Zones' is a fun and practical way to help households grow food in their garden or allotment. It involves coming together to form work parties that go around each person's garden/allotment in turn, spending a few hours doing a project that would take much longer to do alone.

Introductory Meeting:

Wednesday 19th March 2014 at 7.30 pm
Friends Meeting house, Jesus Lane, Cambridge CB5 8BA

All Welcome!

People who have done it said...

"Amazingly, in less than three hours, the garden was transformed"

"Like ground force - but much more fun."

"I don't know what it was; the sunshine, the friendship, the labour, the food, the fresh air; but my spirits were uplifted and I spent the rest of the day on a high. This morning I came downstairs and felt compelled to go out into the garden. It looked lovely."
